EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 17-24 to an invention non-elected without traverse. Accordingly, claims 17-24 have been cancelled.

2. The black and white photographs submitted with Applicant's response are acceptable.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The Mathur Declaration shows that the formation of foshagite is not necessarily inherent under the reaction conditions used by the prior art of record. The prior art does not show or suggest paper containing calcium silicate filler having the x-ray diffraction pattern as claimed in claims 30, 53 and 56, and which filler is a mixture of calcium silicate species; xonotlite and foshagite, and riversideite and xonotlite; each species having specifically claimed dimensions.

4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
